NARRATIVE

PURPOSE OF SURVEY: The purpose of this survey was to correct a property survey performed on the 5 above described tracts of land on 9/17/96. I originally used data provided by the B.L.M. for the location of the section corners along the South section line, which were later moved by them, causing the need for a new survey.

BASIS OF BEARING: The basis of bearing was taken from B.L.M. data.

SURVEY FINDINGS: I used the section corners as indicated on the plat to perform this survey.
